

Meet Gloria

The professional Camera for estate agents

Giraffe 360 -3 estate agent services from one camera

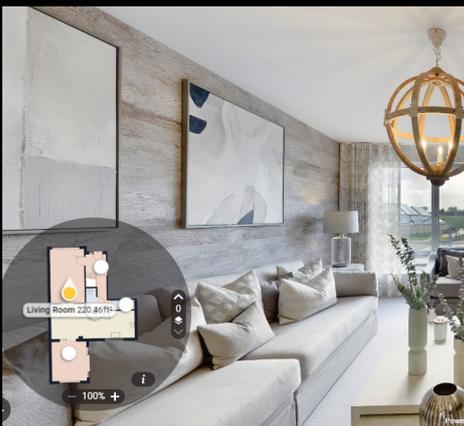

HDR Photos

Gloria will generate high quality images at the click of a button and with the ultra wide lens the full room will be captured. Its always a nice day when Gloria is around with sunny sky editing.

Accurate Floorplans

Gloria uses LIDAR technology to generate the floorplans guaranteeing 98% accuracy. The cameras will take a 360 degree scan of the room to create the floorplan in under a minute!.

Virtual Tours

While Gloria is busy scanning the room for the floorplan she is also generating a Virtual walk through, which can be used with all online listing.
